FREEDOM SHOULD BE FREE

## lyrics

## FREEDOM SHOULD BE FREE

Sunken eyes and a heavy chest  
Our hearts deserve some rest  
Lungs filled with smoke, coming from miles away  
We always pray

Just like the air we breathe  
All the love we feel  
Daisies dancing in the wind  
Sun shining on our faces, faces  
Just like that, freedom should be free  
Just like that, freedom should be free

We're hiding in the dark  
Endless whispers leave a mark  
Broken souls imprinted on our hearts  
We count our bedroom stars

Just like the air we breathe  
All the love we feel  
Daisies dancing in the wind  
Sun shining on our faces, faces  
Just like that, freedom should be free  
Just like that, freedom should be free

Just like my daddy used to say  
Never forget the way sunflowers bloom  
Always facing the sun  
And when it's not there, face each other instead  
No when it's not there, face each other instead
